HEALTH SCIENCES LIBRARY

Dear Sir:

In compliance with Article 4, Section 90-57 of the General Statutes of North Carolina, we are pleased to submit to you and to the North Carolina Pharmaceutical Association the One-Hundred-Fourth Annual Report of the North Carolina Board of Pharmacy. This report contains the proceedings of the Board for the fiscal year ending September 30, 1985.

Respectfully yours,

NORTH CAROLINA BOARD OF PHARMACY
David R. Work, Executive Director

ONE-HUNDRED-FOURTH ANNUAL REPORT
OF THE
NORTH CAROLINA BOARD OF PHARMACY

Board Member Election

The Election held in the Spring of 1985 was vigorously contested with four candidates for Region 1 in the western part of the state and three candidates for Region 2 in the north central part. Candidates for the position in the west were Ken Burleson, Harold Day, Howard Ferguson and Roy Smith, Jr. The Spring Election produced approximately 48% of the vote for Mr. Day and Mr. Burleson declined to ask for a run-off election. Region 2 had a closely contested race between Evelyn Lloyd and Jack Watts with Fred Eckel coming in third. Ms. Lloyd, as the second highest vote getter, had the option for calling for a run-off which she did. The run-off election was mailed with the July Newsletter and counted in August resulting in a victory for Evelyn Lloyd with 896 to Jack Watts total of 865 votes. This high interest in a position on the Board of Pharmacy is an excellent example of the significance and importance of Board activities.

In February of this fiscal year the Board of Pharmacy Elections was called upon to rule regarding the residence or place of practice to determine the eligibility as a candidate for election. After considering all the facts in a specific case it was the Board members' ruling that the place of residence was controlling and not the place of practice in regard to the region in which individual pharmacists could run for election to a Board position.

Change In Statute

During the long session of the General Assembly a change was made in the Pharmacy Practice Act which allowed registered nurses to dispense drugs in health departments. A copy of the addition to the statute is repeated below. The Board will proceed to consider regulations on this subject which would specify a formulary and any training necessary for registered nurses to dispense drugs in health departments.

90-85.34.1 Public health pharmacy practice.

(a) A registered nurse in a local health department clinic may dispense prescription drugs and devices, other than controlled substances as defined in G.S. 90-87, under the following conditions:

- (1) The registered nurse has training acceptable to the Board in the labeling and packaging of prescription drugs and devices;
- (2) Dispensing by the registered nurse shall occur only at a local health department clinic;
- (3) Only prescription drugs and devices contained in a formulary recommended by the Department of Human Resources and approved by the Board shall be dispensed;

- (4) The local health department clinic shall obtain a pharmacy permit in accordance with G.S. 90-85.21;
- (5) Written procedures for the storage, packaging, labeling and delivery of prescription drugs and devices shall be approved by the Board; and
- (6) The pharmacist-manager, or another pharmacist at his direction, shall review dispensing records at least weekly, provide consultation where appropriate and be responsible to the Board for all dispensing activity at the local health department clinic.

(b) This section is applicable only to prescriptions issued on behalf of persons receiving local health department clinic services and issued by an individual authorized by law to prescribe drugs and devices.

(c) This section does not affect the practice of nurse practitioners pursuant to G.S. 90-18.2 or of physician assistants pursuant to G.S. 90-18.1.

Section 2. This act is effective upon ratification, June 7, 1985.

Continuing Education For Relicensure

This year brought about the first experience with requiring continuing education for the relicensure of pharmacists. A number of different ways to obtain continuing education have been deemed acceptable by the Board and most were communicated to pharmacists in the January, 1985 Newsletter. The Board will accept continuing education offered by providers approved by the American Council on Pharmaceutical Education. The Board also accepts programs or meetings approved or sponsored by UNC-Chapel Hill School of Pharmacy or its AHECs, the North Carolina Pharmaceutical Association or the North Carolina Society of Hospital Pharmacists or their equivalent for non-resident pharmacists. In addition, the Board accepts programs approved by a committee operating through the North Carolina Pharmaceutical Association and consisting of members of the Association and faculty from the School of Pharmacy. Graduate or professional school courses are acceptable for credit in the same manner as continuing education in other fields providing there is some reasonable connection to pharmacy or medical care. This section, for example, can be used to approve programs that have Continuing Medical Education Category I credit. For example, study towards a masters degree in business administration would be acceptable while coursework on a divinity degree would not meet the standard. Teaching activity by a person whose primary occupation is not education is acceptable equal to the hours of instruction. Repeating the same subject activity will not count for additional hours. Excess hours from from one year will not be carried over to the next year and credit can only be used once. Attendance at meetings of the Board of Pharmacy, subject to available space, will count for up to one hour for one meeting. Acting as a preceptor for at least 400 hours of internship can satisfy up to 5 contact hours of continuing education providing that the internship experience meets the Board's standards. Pharmacists should take note that they can satisfy the entire c.e. requirement through correspondence courses and serving as a preceptor, at least through this initial period. Receipt of a license by

examination will satisfy continuing education requirements for registration the next year. Pharmacists in foreign countries may obtain all hours by correspondence.

Accreditation Visit

The Board participated in the Accreditation Visit by the American Council on Pharmaceutical Education at the UNC School of Pharmacy. The Board's representative in this activity was Mr. Joseph B. Roberts, III who, as a public member, was in a position to give unique input to the accreditation process. The visit occurred on March 12th and 13th, 1985 and produced a favorable report from the Council continuing the School in an accredited status until the next on-site visit in 1990-91.

Information Required by Chapter 93B

The North Carolina Board of Pharmacy had its offices at 602H Jones Ferry Road in the Willow Creek Shopping Center in Carrboro for the period of October 1st through September 30th. There were 183 people who applied for the licensure examination during this time period and none were refused resulting in a total of 183 candidates. There were 161 pharmacists licensed by examination and 131 applicants for licensure by reciprocity with 128 receiving licenses and 3 failing to meet reciprocity requirements. During this fiscal year 11 licenses were suspended, 6 were revoked while there were 11 stay orders on either suspensions or revocations producing a probationary period. There were also 3 reprimands during this fiscal year.

REPORT OF CERTIFIED PUBLIC ACCOUNTANTS

Governor James G. Martin
North Carolina Board of Pharmacy
The General Assembly of North Carolina

We have examined the balance sheet of the North Carolina Board of Pharmacy as of September 30, 1985 and 1984, and the related statements of revenues and expenditures and changes in fund equities for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion the financial statements referred to above present fairly the financial position of the North Carolina Board of Pharmacy at September 30, 1985 and 1984, and the results of its operations and changes in its financial position for the year then ended, in conformity with generally accepted accounting principles.

NORTH CAROLINA BOARD OF PHARMACY

NOTES TO FINANCIAL STATEMENTS

For the Years Ended September 30, 1985 and 1984

1. Summary of Significant Accounting Policies.

The accounting policies and practices of the Board conform to generally accepted accounting principles for Special Revenue Funds. Certain major policies and practices follow:

- A. The Board records the revenues and expenditures of its operation on the modified accrual basis of accounting. Under this basis, expenditures are recorded at the time liabilities are incurred, and revenues are recorded when they become available and measurable.
- B. Property and equipment is recorded as an expenditure of the Operating Fund in the year of acquisition. The proceeds from the sale of property and equipment is recorded as revenue to the Operating Fund. For reporting purposes, the fixed assets are reflected in the Fixed Assets account group with no provision for depreciation.

2. Restatement of Fund Equities Balances.

The purchase of an automobile in the prior year was not reflected in the Fixed Asset account group. This automobile which had a purchase price of \$10,970, has been added to the beginning balance of Investment in Fixed Assets.

3. Lease - Office Space.

The Board entered into a five-year agreement on December 14, 1983, for the lease of office space. The lease, which runs from March 1, 1984, to February 28, 1989, requires a monthly expenditure of \$1,900 for the duration of the agreement.

4. Lease - Office Equipment.

The Board entered into a 48-month lease with IBM on December 17, 1983, for an IBM Memory 50. The payments are \$237 per month, and payment was begun in February, 1983.

5. Pension Plans.

All full-time employees employed prior to July 1, 1983, are covered by the Teachers' and State Employees' Retirement System of North Carolina. The Board has developed a contributory pension plan for all full-time employees employed after July 1, 1983. Total pension expenses were \$19,647 for the year ended September 30, 1985, and \$17,476 for the year ended September 30, 1984.

STATEMENT OF CERTIFIED PUBLIC ACCOUNTANTS

Our examination was made primarily for the purpose of rendering an opinion on the basic financial statements of the North Carolina Board of Pharmacy taken as a whole. In connection with our examination, we have reviewed the supplementary information presented hereafter which is not necessary for a fair presentation of financial position or results of operations. This supplementary information has been subjected to the audit procedures applied in the examination of the basic financial statements and is, in our opinion, fairly stated in all material respects in relation to the basic financial statements taken as a whole.
